RE: Final Phase of Electrical Wiring - Elligson Storage Building

On April 1, 1985 Council approved Phase I, pertaining to the installation of the electrical wiring to the storage building located at the Elligson Reservoir.

Phase I has been completed and Phase II is ready to be completed. Phase II includes all internal wiring in the building itself and is the final phase of the electrical project. This improvement is budgeted in the current year's budget under line item 03-55-71010.

Elco Electric was approved to complete Phase I. The City has used Elco extensively for electrical projects in the past. They have submitted a quote to finish Phase II at a total cost of \$1,965.50 which includes all materials and labor.

**RECOMMENDATION:**

Approve Elco Electric to complete Phase II at a total cost of \$1,965.50.
